AMENDMENT

Commissioner for Patents  
Alexandria, VA 22313-1450

Sir:

Responsive to the Office Action mailed July 21, 2003, please amend the application as follows.

In the claims

1. (currently amended) A portable communication device, comprising:  
a wireless transceiver capable of operating with a plurality of affiliations;  
a memory storing data associated with the plurality of affiliations and time information associated with each of the plurality of affiliations, the time information governing what time each of the plurality of affiliations is to be an active affiliation;  
means for determining a current time; and  
a controller which compares the current time with the time information to determine which of the plurality of affiliations is to be active, and which directs the transceiver to operate in accordance with the data associated with the active affiliation.
2. (currently amended) The portable communication device of claim 1, wherein the means for determining a current time comprises means for decoding a transmitted time received on a control channel.
